Methods of rapid communication for the purposes of this clause are defined and mutually recognised as either telex, or letter if delivered by hand on the date of writing, or facsimile, or E-mail, or other electronic means, always subject to the proviso that if receipt of any Notice is contested, the burden of proof of transmission shall be on the sender who shall, in the case of dispute, establish, to the satisfaction of the Arbitrators or Board of Appeal appointed pursuant to the FCC Arbitration and Appeal Rules, that the Notice was actually transmitted to the addressee. If required by the sender, the receiver shall acknowledge receipt of a Notice by one of the same methods.

The Parties shall agree upon any appropriate remedy for any loss/cost/expense incurred by either Party. In the absence of such agreement the matter may be referred to arbitration and the arbitrators shall, in their absolute discretion, decide upon any appropriate remedy for any loss/cost/expense incurred by either Party. Unless the arbitrators consider it inappropriate, the market price at the date of the closing out shall be deemed to have been the market price at close of business on the date of the Notice.

5.2 Balance of accounts for insolvency

If the contract is closed out pursuant to the Rule 5.1 and there exist any additional contracts between the same Parties which are subject to any FCC Rules (whether relating to cocoa beans or cocoa products) then the additional contracts shall be deemed to be closed out at the same time as the contract is closed out.

An account shall then be taken promptly by the Parties of all sums due from each Party to the other in respect of the contract and the additional contracts, if any, and all sums owed between the Parties shall be set off against each other and any amount which remains owing by one Party to the other shall be paid promptly.

5.3 Unenforceability

If this Rule 5, or any part, is prohibited by law or judged by a court to be unlawful, void or unenforceable, then this Rule 5 or any such part shall, to the extent required, be deemed removed and any remaining part shall continue in full force and effect and shall not in any way affect any other circumstances of or the validity or enforcement of this Contract.

PART 2: EXECUTION OF CONTRACT

7. GENERAL

7.1 Separate Contracts

Each Bill of Lading quantity shall be enforceable as a separate contract and the terms of the contract shall be deemed to be the terms of each such separate contract.

Any container quantity delayed and/or short delivered shall be enforceable as a separate contract and the terms of the contract shall be deemed to be terms of each such separate contract.

7.2 Quality and Condition

7.2.1 General

The product supplied is warranted to be of satisfactory quality, in good condition and fit for human consumption. Unless otherwise agreed between the Parties, the standards of the Codex Alimentarius for cocoa products current at the date of the contract will apply.

7.2.2 Quality

Quality shall be final at departure or on arrival as agreed between parties

7.2.3 Condition

Condition shall be final at point of the stuffing of the containers.

7.3 Option Contracts - Origin/Brand/Port at Seller's Option

When the goods have been sold on terms with the option to the Seller as to which origin(s)/brand(s)/port(s) will be delivered, the Seller must advise the Buyer in writing latest 15 days prior to the actual shipment of the goods of the name(s) and quantity(ies) of the origin(s)/brand(s)/port(s) he will deliver.

7.4 Charges and Costs

A demand for reimbursement of any charge/cost/expense incurred by one Party on behalf of the other Party must be accompanied by appropriate evidence of the charge/cost/expense incurred.

8. SHIPMENT

8.1 Quantity

The contract quantity is net of tare and is subject to a tolerance of 0.25%, based on the weight of the product as printed on the Packages (in case of a Shipping Weight contract), or on the packing list (in case of a Shipped Weight contract).

The above tolerance shall not apply whenever a contract is closed out by payment of differences between purchase and sale prices.

8.2 Transport Requirements

All means of transport have to comply with the relevant requirements of any competent authority in the countries of shipment, transit and delivery.

The ship's hold, vehicle and/or container must be clean, dry, odourless and in good condition and must be suitably prepared for the transport of cocoa products. Containers shall be sealed after stuffing.

All vessels must meet the requirements current at the time of shipment of either the Institute Classification Clause or the Police Française d'Assurance Maritime sur Facultés.

8.3 Packaging

Cocoa products shall be packed in new hygienic Packages suitably lined and in wrappings of sufficient strength to withstand the transit and storage, and which are suitable for food contact use.

8.4 Nomination of vessel

8.4.1 Buyer booking the freight

The Buyer shall nominate the vessel(s) and quantity(ies) required for loading and send a Notice to the Seller advising the ETA of the vessel(s) no later than 15 days prior to the ETA of the Vessel(s) at the Port of Loading, and at the same time, advise the Seller the name of his Superintendent or Sampler, if appointed.

The Buyer may give Notice to the Seller of:

- (a) a change in the Estimated Time of Arrival and/or
- (b) a substitution of the nominated vessel

provided the Buyer gives such Notice promptly to the Seller and the original shipment period is maintained.

The Buyer will reimburse the Seller for any reasonable, verifiable and foreseeable additional costs which may be incurred by the Seller as a result of any change in the Estimated Time of Arrival of the vessel or substitution of the Vessel.

If the loading cannot commence by the day after the Estimated Time of Arrival because of late arrival of the vessel the Buyer shall reimburse the Seller the extra costs incurred from the second day following the Estimated Time of Arrival to the actual date of arrival in the port of shipment of the delayed vessel, provided that the goods are ready for loading.

If the loading cannot commence after the actual date of arrival because of a refusal by the carrier to accept the goods on board then, unless the Seller is at fault, the Buyer shall reimburse the Seller the extra costs incurred from the date of such refusal to the date the carrier accepts the goods on board, provided that the goods are ready for loading.

Should the Seller fail to complete loading of all or part of the contractual quantity on the duly nominated and arrived vessel(s), then unless Rule 19.1.1.1. applies, the Buyer shall be entitled to hold the Seller in default for the quantity not loaded, subject to the provisions of Rule 19.1.1.2.

The Buyer shall ensure that the cargo space is made available within sufficient time to enable the Seller to complete loading of all of the contractual quantity by the last day of the shipment period failing which the Seller shall be entitled to hold the Buyer in default for the quantity not shipped, subject to the provisions of Rule 19.1.2.1.

8.4.2 Seller booking the freight

The Buyer shall give Notice to the Seller nominating the shipping line(s) to be used, the port of destination and the quantity required for loading at least 15 days prior to the commencement of the shipment period.

Upon receipt of such Notice, the Seller shall reserve the freight space with the shipping line(s) nominated by the Buyer.

The Seller shall confirm to the Buyer the vessel so booked, the tonnage and the Estimated Time of Arrival of the vessel at the port of loading.

Should the Seller fail to complete loading of the contractual quantity within the shipment period, the Buyer shall be entitled to place the Seller in default in accordance with the provisions of Rule 19.1.1.2. in respect of the quantity not shipped, unless the Buyer has failed to nominate a suitable shipping line in due time to allow for loading by the end of the shipment period, in which case, the Seller shall be entitled to place the Buyer in default in accordance with the provisions of Rule 19.1.2.1.

8.5 Bills of Lading

The Seller shall present clean through Bill(s) of Lading issued by a Liner operator or their agent, stating that the parcel is “loaded on board” or “received on board” or “shipped on board”, and specifying the container numbers, the seal numbers, the goods, the net weight and, if appropriate, the number of packages and shipping marks, all of which shall be considered proof of shipment unless the contrary is proved.

The date of loading shown on the Bill of Lading shall be regarded as the date of shipment, unless the contrary is proved.

8.6 Liner terms

Only Liner Bill(s) of Lading in a form customarily used for shipment of the goods from the port of loading shall be issued and presented for payment under the Contract.

8.7 Vessel Routes

Carriage shall be either by a direct route or by an indirect route customarily used for the carriage of cocoa products.

8.8 Ship owner’s rights under Bill of Lading

When a ship owner, in exercise of any purported rights under the terms of the Bill of Lading discharges the cargo at a port other than that named in the Bill of Lading, that port becomes the port of discharge for all settlements under the contract.

FOB / C&I - All costs arising therefrom shall be for the Buyer’s account.

9. DECLARATION OF SHIPMENT

9.1 Contents

The Seller shall send a notice to the Buyer to be referred to in CP4 as a Declaration of Shipment, which shall contain the following:

- (a) Contract Number and Date,
- (b) Description of goods shipped including their origin,
- (c) Quantity of goods shipped (weight and number of Packages),
- (d) Whether the parcel is in complete or partial fulfilment of the quantity sold,
- (e) Name of the vessel,
- (f) Bill of Lading (or Ship’s Delivery Order) date and number,
- (g) Container number(s) and seal number(s),
- (h) Port of loading,
- (i) Port of discharge and, if different, place of final delivery,
- (j) The name of the supervisor appointed by the Seller, if any.

This Declaration of Shipment shall not be withdrawn nor substituted without the consent of the Parties. The Buyer may not refuse the Declaration of Shipment because of insignificant errors or omissions.

9.2 Time of declaration

9.2.1 Shipment Terms

The first Seller shall send the Declaration of Shipment to his Buyer as soon as reasonably practicable after shipment of the goods. Each subsequent Seller shall pass the said Declaration of Shipment to his Buyer in accordance with Rule 3.2.

For goods sold “afloat” the first Seller shall send the Declaration of Shipment to his Buyer no later than midnight Seller’s local time on the day the terms of the contract are agreed, failing which the Buyer is entitled to put the Seller in default.

A Party who fails to send declarations of shipment in accordance with all the terms hereof shall indemnify the other Party for all extra expenses unavoidably incurred by that other Party arising directly from the late sending of the Declaration of Shipment.

9.2.2 Arrival Terms

The Seller shall send the declarations of shipment required under Rule 9.1 to the Buyer as soon as reasonably practicable after exercising the arrival option.

The Declaration of Shipment shall be accepted by the Buyer provided that, at the time it was sent by the Seller, the goods were Afloat on a vessel expected to arrive during the arrival period.

No claim shall be made by the Buyer against the Seller if, after the declaration has been sent to the Buyer the vessel becomes a casualty which prevents the goods arriving within the arrival period.

9.2.3 Minimum quantities

Unless otherwise agreed, each Declaration of Shipment shall be for a minimum of one full TEU container-load.

9.2.4 Ship lost or not lost

With the exception of "Arrival Terms" contracts, the Seller shall be entitled to declare a shipment against the contract, ship lost or not lost.

Even in the event of the actual loss or a constructive total loss of the vessel or in the event that the voyage is abandoned, payment shall be made in full by the Buyer based on net Bill of Lading weights against presentation by the Seller of the documents in accordance with Rule 12.1.

10. PRICE FIXATION

10.1 Price Fixation terms

If the price of the contract is to be on a price fixation basis, the contract shall state the ratio against either:

- (a) i. the applicable Liffe Administration and Management ("Liffe") Cocoa Futures Contract delivery month; or
- ii. the applicable Intercontinental Exchange Futures US ("ICE") Cocoa Futures Contract delivery month

and

- (b) whether price fixation shall be at the Seller's option, at the Buyer's option, or by mutual agreement.

10.2 Contract price and tonnage

The contract price shall be determined by the specified ratio applied to either:

- (a) the price at which Parties exchange Futures Contracts ("Against Actuals" / "Exchange for Physicals"); or
- (b) the Cocoa Futures' ask price for the specified market delivery month in the case of price fixation at the Buyer's option, subject to availability of volume on the Futures Market; or
- (c) the Cocoa Futures' bid price for the specified market delivery month in the case of price fixation at the Seller's option, subject to availability of volume on the Futures Market; or
- (d) a mutually agreed price.

Unless otherwise agreed between the Parties the resultant price shall be expressed in either Pound Sterling per Metric Tonne for contracts fixed against Liffe, or US Dollars per Metric Tonne for contracts fixed against ICE.

10.3 Time of price fixation

10.3.1 Price fixation prior to loading

In all cases price fixation must occur prior to the loading of the product

10.3.2 Price fixation at Buyer's or Seller's Option

The Party holding the price fixation option shall request fixation pursuant to Rule 10.4 subject to the following provisions:

- i) the price must be within the range quoted for the specified delivery month of either the Liffe or ICE (as applicable) Cocoa Futures Contract on that day; and
- ii) the time of fixation must be on any business day of the relevant Cocoa Futures Contract, starting from the date of the contract to the close of business on a date which is, in respect of the specified delivery month, two business days prior to the:
 - (a) last trading day, for contracts fixed against Liffe; or
 - (b) first notice day, for contracts fixed against ICE;

all dates inclusive, in accordance with Rule 10.2.

Notwithstanding the above, the Party holding the option to price-fix can request that the fixation be transacted by way of an "Against Actuals"/"Exchange For Physicals" transaction at any price within the price range established in respect of the delivery month to date, subject also to this being in accordance with the current Liffe or ICE requirements, as relevant. If payment is not made within that period, the Seller may freely dispose of the goods and declare the Buyer in default, whereupon the contract shall be closed out. PART 4 – SAMPLING PROCEDURES FOR ARBITRATION PURPOSES

21. APPLICABILITY

Parties may agree at the time of entering into the contract upon the applicable sampling procedures for the purposes of quality determination in accordance with Rule 15.2.1 or Rule 15.2.2 as appropriate. Unless otherwise agreed between the parties, for disputes referred to FCC Arbitration only samples prepared in accordance with the following procedures will be permitted. Under these Rules only cocoa products packed in sound Packaging Units up to a maximum weight of 1200kg may be sampled.

22. DEFINITIONS

22.1 Consignment

Means a container (1 teu) of Packaging Units.

22.2 Standard Sample

Means a quantity of cocoa product of a minimum of 150g (or such larger quantity as may be required in accordance with standard recognised analytical tests for the identified Defectives upon which the claim for arbitration is based) drawn from a single location in a Packaging Unit of less than 250kg and which will be used for the purposes of assessing the quality of the Consignment against the contract specification

22.3 Primary Sample

Means a quantity of cocoa product of not less than 10g drawn from a Packaging Unit in excess of 250kg. A minimum of 16 Primary Samples shall be drawn from each Packaging Unit in excess of 250kg selected for sampling.

22.4 Composite Sample

Means a sample of a minimum of 150g (or such larger quantity as may be required in accordance with standard recognised analytical tests for the identified defective(s) upon which the claim for arbitration is based) and formed from the homogenous mixing of Primary Samples drawn from and representative of each Packaging Unit in excess of 250kg and which will be used for the purposes of assessing the quality of the Consignment against the contract specification.

22.5 Defectives

Means those aspects of the quality which, on analysis of a Composite Sample or a Standard Sample prepared from samples which have been drawn from the Consignment in accordance with the Sampling Plan, are found not to be in accordance with the contract specification.

22.6 Packaging Unit

Means a single package containing a quantity of cocoa product.

22.7 Sample Size (n)

Means the number of Packaging Units to be sampled per Consignment.

22.8 Acceptance number (C)

Means the maximum number of Defectives permitted in accordance with the Sampling Plan in order to consider the Consignment as meeting the contract specification.

23. APPARATUS AND MATERIALS OF SAMPLING

Sampling instruments, apparatus and sample containers shall be clean (and where appropriate sterilised), dry and made of materials which are chemically and microbiologically inert to the product being sampled.

After Primary samples or Standard samples have been drawn, the Packaging Units must be securely and hygienically resealed and repaired as necessary and clearly marked to show that the unit has been subject to sampling. Samples and the corresponding Packaging Units must be clearly labelled in this respect in order to ensure traceability of the sample and the date and place of sampling and the name of the sampler.

24. SAMPLING PLAN

For any given number of items within a consignment, the table below gives the sample size (n) and the acceptance number (C);

Samples to be taken randomly.
